The publication of this issue commenced

HONORONG, SATURDAY, MAROH 13, 1886. THE despatches and correspondence which have been published, bearing upon the Loan, the through Telegraph line, and the Quarantinu Regulations, are important documents—the more so tory. Regarding what has been already the Colonial Office on the Loan question -whether money should be raised here or in England, in silver or in gold—it is curious to note the unusual amount of Jabour and trouble taken by the Scoretary of State to demonstrate the advantages to the Colony of borrowing! the money in England. It is so seldom that the ordnous duties of a Secretary of State for the Colonies permit of a despatch like that referred to being written, that poor, neglected Colonists ike ourselves naturally inquire whence cometh this anxious interest in our welfare. Probably it would be ungracious to suggest that any of the minor departments of the Colonial Office had sided in the preparation of this wonderful doonment, pervaded as it is with the most disinterested expressions of consideration for our interests. The Finance Committee will doubtless deal in a thoroughly business-like manner with this subject, although it is matter for regret that such questions disappear from public view so soon as they are relegated to that dark chamber. It should not be forgotten that, if the large additional sum asked from the Colony for fortifications be granted, the Colonial Treasury will be totally unequal to meet the demands for sanitary works. A long of two or three million dollars will

The question of obtaining through the clear duty of the Imperial Government to safeguard its own interests, there cannot be two opinions about the inability of Hongkong to pay anything at present towards the cost. But the Imperial Government is apparently quite ready to muction the direct cable, if by any chance it can get any one else to pay for it. This is natural, but is decidedly open to ob-jection by those whose pookets are

appealed to.

Those quaint Quarantine Rules bave been again modified to three days. They are getting smaller, by degrees and beautifully less; but they must finally disappear. The Colonial Secretary's reply to the letter of the General Chamber of Commerce is more ingenious than satisfactory. It evades the impossibility of securing an effective quarantine in this Harbour, and this omission vitintes all the arguments advanced and weakens the authorities quoted. It may be advisable under certain circumstances to enforce two days' quarantine on vessels entering Cardiff; but it is useless to do so in a port like Hougkong, unless every native craft is included in the inspection. Of course the Largretto is not yet built; and although that may give the authorities here some excuse for clinging to the axploced notions about quarantine, it ought to furnish an unsuswerable argument forthe immediate prosecution of the Lakaretio scheme: Hongkong Observatory, March 18, 1880.

WE regret to have to announce the death of a very old servant of the Government, Mr A. F. Sampson, who died at his residence this forenoon. Mr Sampson has been ailing for some months past. He was much respected both by the Captains and officers visiting the port, and by mose on shore who knew him. He leaves a widow and five or six of a family, most of whom are BLOAD Ub.

An inquest was held this afternoon before Mr Mitchell-Innes on the body of the Chinsman who died while being conveyed to the Police Station at Hung Hom, on Wednesday. Allegations have been made that his death was accelerated by rough handling while being taken to the Station. The body was identified, but no evidence was taken, the inquest being adjourned till Monday.

His Excellency Cheung Yun Fune, the new Chinese Minister to the United States, accompanied by his suite, left Hougkong to-day per the Guelie for San Francisco. He embarked from Pottinger Street wharf, where a guard of honour consisting of 50 Sikh soldiers was posted. He was accompanied on board by the acting Registrar General, Mr Stewart-Lockhart, Before embarking on the Gaelic he went on board one of the Chinese gunboats, which honoured him with a salute of three guns when he

According to & Canton correspondent whose authority is of the most reliable character, the Vicercy of Canton has officially denied having made any allusion to reprisals in his telegrams to the Chinese Minister at Washington. This news is very gratifying, and we are ready to believe in its corrections, as the probability is that the Viceroy's telegrams have either been twisted accidentally in transmission, or that they have been corrupted by the American newspapers. The same correspondent says the Viceroy deserves praise for his effective measures in keeping

Canton quiet, for quiet it is, despite the statements of our correspondents.

A DEMENTED Chinaman who had been picked out of the water this morning and saved from a self-inflicted death gave the police at the Central Station some little trouble and excitement this forenoon. He first manifested decided objections to having his wet clothes taken off, and it was only after a great deal of shricking and struggling that the prisoner's garb was drawn on him. And the trouble with the lunatio! was not at end even then, for when being led from the charge room to the jail he sluded the watchfulness of his keeper and rushing down the steps in front of the jail soon gained the street. Great excitement was of course caused among the Police officials when it was known that a prisoner had escaped, and great was the number that set arunning and chasing after the unfortunate Chinaman. And although weary of life the lunatic had evidently love of liberty for he made good the distance between himself and his pursuers and-might perhaps have escaped altogether, had he not been secured by a Sikh policeman over whose beat he ran. On being taken back to the jail a great change came over from Liverpool, left Singapore on the the prisoner's demeanour and instead of 11th just, and may be expected here struggling to get free he made profuse ob isances to his captor.

INSPECTOR Cradock, on the arrival of the City of New York this forenoon, arrested a Chinaman, named Amy Tai Duck, who is accused of the murder of Captain Wickersham and his wife in the United States. The case is one which has created some sensation in the States, and the details are certainly of a horrifying nature. The perpetrator of the dastardly deed was a cook in the service of Captain Wickersham; and the allegation in that he, in the Captain's That the complimentary dinner given to absence, bound and outraged his wife and then shot her, completing his villany by shooting the Captain on his return. The murderer escaped to San Francisco and was supposed to have taken ship there for Japan or Hongkong. On the details of the horrible crime reaching the Capital of son, Cooke and Dupuis; Benedicite, the West, the Chinese in that city subscribed \$1,000 to aid in the capture of the criminal. The news was cabled to Japan, and on the arrival of the Rio de Janeiro at that port, a Chinaman answering to the description given was arrested on board and brought before the authorities in Japan. But as no extradition treaty exists between Japan and America, no steps could be taken to secure the person the prisoner, who was, therefore, at liberty to remain in Japan and defy the American authorities. The prisoner, however, was unacquainted with international law, and did not take adventage of his liberty in Japan. He obtained per-New York, and quite unwittingly thus rushed into the arms of justice. For no sooner was he on board the American steamer than he was handouffed and confined in a cabin till his arrival at this port, where, as stated, he was arrested by the British Government. The arrest was made at the request of Colonel Withers, Consul for the United States in Hongkong, Government, petitioned the Megistracy in Hongkong to apprehend Amy Tai Duck with a view to his extradition. The prisoner was brought before Mr Mitchell-Innes at the conclusion of the Police Court business this morning and was remanded till Monday. The photograph appended to the That our Acting Harbour-Master is able in St. Andrews Hall, City Hall, Major printed notice, offering a reward of \$500 for the apprehension of the murderer certainly bears a striking resemblance to the man who is now in Hongkong jail

### Police Intelligence. (Before E. Mackean, Esq.) Friday, March 12,

THE EXTRADITION CASE The trial of Chang Chi, whom the Chinese authorities accuse of piracy and murder in their territory, and wish delivered into their hands, was continued to day at the Magistracy, before Mr E. Mackean, Webber appeared for the presecution, and Mr Wotton for the defence. The only witness examined to-day was,

Lin Achin, a trader, who was on board the junk on which the murdered man was alleged to be. He said Yau Shaup-I was standing at the helm of his junk when he was shot. A shot was fired coming towards the stern of the boat, and he fell. Only one shot was fired, Shaup-I died shortly after he fell.

Cross-examined by Mr Wotton-He was nine days on the junk and was mostly down below. He was sick all the time with the exception of two days. He commenced the voyage on the 20th day of the 7th month, and it was the day before he left that he became acquainted with Yau Shaup I. He know nobody on board the boat and had so frightened that he did not remember whether he heard another shot fired or not. There were two passongers on board.

Re-examined by Mr Webbor-He was not see sick on the day when the shot was fired. He was below at the time but went on deck whenever he heard the shot, Mr Wobber said that yesterday a tele-

gram was received from the Vicerov of Canton, stating that some more witnesses had left and were on their way and would be here probably in the course of a week. He asked, therefore, for a remand in order that they might prepare the necessary evidence. He would wish a remand until Monday week.

Mr Wotton-I must certainly object to such a long adjournment. The prosecution should be prepared with the necessary evidence to proceed with their case before they commence it. A long adjournment would be projudicial to the defence when we have witnesses susceptible of being tampered with by all imaginary processes. I must ask that you proceed with the case and that you take it up again to-morrow morning.

Mr Webber-It was impossible to go on to-morrow morning. This is the first time the prosecution has asked for an adjournment. All the other remands were made at the request of the defence. I am sorry than Mr Wotton thinks the witnesses are not sufficiently stable to remain here and give their evidence. But these new witnesses cannot be here, and if Mr Wotton objects to Monday week, I will ask you to adjourn till Wednesday, and then if my witnesses have not come I must ask for another adjournment. This

is the first time I have asked for a remand. Mr Wotton-As a matter of fact adjournments were asked for by Mr Ewens on several occasions. A delay may be very prejudicial to my case. Already a number witnesses that I could have produced have been spirited away out of the Colony and I am unable to produce them. I possible may have witnesses for the defence that I may produce, and a further delay I don't think he believes in our new fortifi- and navy were the forerunners, the pioneers I ask your worship to go on with the case cations—(laughter)—and he certainly does of commerce; and argued (orther that the and if the prosecution is not able to pro-

Mr Wobber Everything is being done to get the witnesses as soon as possible. They come from outlandish places by boats, dependent on wind and weather, and we cannot be sure what day they will be here. Mr Mackean-Your witnesses seem to be manufactured to order. They do not seem to be or stock.

Mr Webber-I am not fully acquainted with the coast and cannot say when they will be here. I must ask for an adjournment to Wednesday next. Mr Mackean-Do you propose to go on with the second care

Mr Webber-Yes. I propose to go on with the second case just now Mr Wotton-I sak that this case be disposed of first, because I intend to call the second man as a witness for the defence. Mr Mackean -Thonal think it is better that this case should be settled before pro-

seeding to the other. Mr Wotton-I think that would be the course less prejudicial to the defendant. Mr Mackean-Then I will remand this case till Thursday at ten o'clock. The following is the charge against the

second prisoner :-We, Tsai Sih Yung, an expectant prefeet of the Province of Kwong Tung in China, and Yul Ching Cheong, an expectant sub-prefect of the Province of Feh-kien in China, and Creasy Evens of Hongkong, all officers of the Chinese Government, desire the arrest of Cheung A-ya, a native of Pootin district in the prefecture of Hing-Ta in the Province of Fuh-kien, a Chinese aubject now being within the Colony of Hongkong. And we allege that the said Cheung A-ya has committed a crime or offence against the law of Chine. And we further allege and charge that the said\_Cheung A.ya, being a Chinose subject, and being a member of a band of pirates, commanded by Chenng A-chi, now in custody, has at divers times and places, within the juris. diction of the Emperor of China, committed divers acts of piracy or sided and abetted in the committal of such acts of piracy."

The following is the Report of the Committee for the year ending 31st December, 1885, to be presented to the members at the annual inecting to be held on Thursday, the 18th March, 1886, at 3.30 p.m. There are a large number of appendices attached to the report, but the most of these have been published :--

TELEGRAPH CONVENTION, BEHEIN 1885. A communication was received by the Committee in the early part of the year, from the Chairman of the Bombay Chamber of Commerce, stating that it was apprehonded that an attempt would be made at the forthcoming Convention-subsequently held at Berlin in August last-to change the conditions upon which Code Telegrams were accepted under existing rules, and forwarding copy of letter addressed by the Bombay Chamber to the Government of India, protesting against any alteration in

the regulations. The Bombay Chamber was informed that your Committee entirely concurred in the views expressed in their letter, copy of which was forwarded by your Committee to His Excellency Governor Sir G. F. Bowen with a covering letter supporting the objections raised to the adoption of any new

Your Committee's representations were communicated to the Postmaster General in London, who replied that there was no intention, as far as his Department was concerned, to materially, change the conditions under which Code Telegrams are accepted. (Appendix A).

CHINESE PASSENGER ACT, 1855, AND ADDI-TIONAL BUILDENS ON BRITISH SHIPPING. It will be remembered that considerable correspondence took place on this subject

Since presenting their last Report, your Committee have pleasure in stating that letter from the Colonial Secretary was received on the 27th March, in which it is stated that the Secretary of State for the Colonies approved of the licence fee of So being retained, and that he considers that under Ordinance 5 of 1876, a further licence is not required, when a ship provided with a licence at the original port of departure calls on her voyage at a second port to take in passengers. The project was warmly supported by the London Chamber, who at once addressed a letter to Earl Granville, Her Majesty's Secretary of State for Foreign Affairs, representing the importance of securing direct telegraphic communication under British control between the two Colonies, and recommending the matter to His Lordship's ber both at the forthcoming Congress, and of Mr Colimboun, accorded this Chamber's ing with Spain and Brazil.-L. & C. Exconsideration.

The matter, your Committee understand, formed the subject of discussion in Imperial Parliament, but Her Majosty's Government were not prepared to grant any subsidy, and so far, nothing has been done towards carrying the scheme out.

Upon the publication, however, in the Government Gazette of the 27th June, of new Regulations, imposing restrictions similar to those enforced in the previous year, your Committee addressed a strong remonstrance to the Colonial Government, pointing out how serious an injury was caused to mercantile interests by the continuance of these restrictions-the burden of them falling entirely upon foreign as distinguished from native shipping -the inutility and danger of the practice of Quarantine, and requesting the reconsideration of the matter by the Colonial Government. PERMITS FOR LANDING CARGO AT NIGHT IN

In July last an Advertisement and Circular letter were issued by the Captain Superintendent of Police in this Colony, in which it was stated that it was proposed to discontinue the issue of general permits for lauding cargo at night, and that special app ication for permission to do so should in future be made, with regard to particular steamers, to the Inspector on Duty at the Central Police Station.

The Committee, being of opinion that such a restriction constituted an interferonce with the freedom of the Port, and would be productive of serious inconvenience to Shipping, addressed the local Government on the subject, and were informed, in reply, that no permits for landing or shipping cargo would thereafter be required.
